HASMUKH KALSARIYA

Surat, INDIA | +91 9081816812 | https://linkedin.com/in/hasmukh-kalsariya

Professional Summary

Technical Lead & Full-Stack Developer with 10+ years of experience designing, developing, and deploying scalable, secure, and high-performance web applications. Specialized in Laravel, Node.js, React, and MySQL with strong expertise in system architecture, REST APIs, SSO authentication (Keycloak), and cloud deployments on AWS and GCP. Proven track record of leading cross-functional teams, optimizing application performance, and delivering robust business-critical solutions. Passionate about clean architecture, mentoring developers, and building maintainable, production-ready systems.

Core Skills

- **AI & Emerging Technologies**
  Generative AI Integration, OpenAI APIs, Prompt Engineering, AI-powered Content & Query Systems
- **Backend Engineer**
  Laravel, Node.js, Express, REST APIs, Authentication, RBAC, Redis, WebSocket
- **Frontend Engineer**
  React.js, JavaScript (ES6+), Hooks, Component Architecture, Performance Optimization
- **Architecture & System Design**
  Scalable System Design, Monolithic & Microservices Architecture, Database Schema Design
- **Cloud, DevOps & CI/CD**
  AWS (EC2, S3), GCP, cPanel, PM2, Nginx, SSL, CI/CD Pipelines, Git Workflows
- **Technical Leadership & Delivery**
  System Architecture, Code Reviews, Technical Decision Making, Performance Optimization, Scalable Application Design
- **Project Management & Leadership**
  Project Planning, Sprint Management, Agile/Scrum, Stakeholder Communication, Team Leadership, Delivery Management, Risk Handling, Client Coordination

Experience

Freelance Project Manager & Technical Lead **01/2026 – Present**
Self-Employed

Responsibilities

- Managing multiple web application projects end-to-end from requirement gathering to production deployment
- Serving as the primary technical and communication point of contact for clients and stakeholders
- Designing scalable system architectures and conducting code reviews to ensure quality and performance
- Identifying project risks, resolving technical blockers, and ensuring timely project delivery
- Delivering full-stack solutions using Laravel, Node.js, React, and AWS/GCP cloud infrastructure

Technical Lead / Team Lead / Project Manager **03/2022 – 01/2026**
Zluck Solutions | zluck.com

Responsibilities

- **Owned technical architecture** for multiple web platforms using Laravel, Node.js, React, and MySQL
- Led and mentored **cross-functional teams** (backend, frontend, WordPress) ensuring high code quality and delivery standards.
- Designed and maintained **scalable REST APIs** and real-time systems using Redis and WebSockets
- Improved application performance and stability by **optimizing legacy systems and database queries**
- Managed **sprint planning, task delegation, code reviews, and production releases**
- Integrated **payment gateways, authentication systems, and real-time modules**

- Acted as the **technical bridge** between business stakeholders and development teams

Full-Stack Developer **03/2014 – 03/2022**
Zluck Solutions | zluck.in

Responsibilities

- Developed and maintained **high-traffic Laravel applications** with optimized MySQL queries
- Built reusable and performance-focused UI components using React and modern JavaScript
- Customized WordPress solutions aligned with complex business workflows
- Improved backend performance and reduced response times through **query and code optimization**
- Collaborated closely with designers, QA, and product teams to deliver production-ready features

Featured Projects

- **PrivateLine - Secure VPN Subscription & Communication Platform**
  - Developed the Node.js backend for a privacy-focused VPN subscription platform with anonymous user registration and automated subscription lifecycle management. Managed AWS infrastructure setup (EC2, RDS, S3, SES), Nginx configuration, SSL, and production deployment.
  - https://privateline.io/
- **LiveAlarm - Real-Time Incident Alert & Tracking Platform**
  - Developed backend logic for incident creation, user assignment, and live GPS tracking using Firebase Realtime Database. Implemented multi-user path visualization and deployed the system on GCP for real-time performance optimization.
  - https://livealarm.app/
- **QueryLoom - AI-Powered Content & Query Platform**
  - Developed scalable Node.js APIs and integrated Generative AI services for dynamic content generation. Implemented trending and personalized content algorithms and managed AWS deployment.
  - https://queryloom.com/
- **ReadyBook - Appointment Booking & Scheduling Platform**
  - Independently developed and deployed a Laravel-based booking system with REST APIs, dynamic scheduling logic, and role-based access control, managing the full lifecycle from development to AWS deployment.
  - https://readybook.zluck.in/
- **Pramukh Finance Advisor - Finance Advisor & Investment Management Platform**
  - Developed a secure Laravel-based financial application supporting deposits and automated monthly/annual interest payouts with RBAC and production deployment on Hostinger.
  - https://account.pfallp.in/

Education and Training

- **Bachelor of Computer Application** - Veer Narmad South Gujarat University, Surat, Gujarat **2012**
- **Master of Computer Application** – India Gandhi National Open University (IGNOU) **2015**

Strengths & Professional Qualities

- Strong technical ownership and leadership mindset
- Expertise in scalable system architecture and performance optimization
- Advanced debugging and problem-solving skills
- Deep hands-on experience with Laravel, Node.js, and React ecosystems
- Clear communicator with technical and non-technical stakeholders
- Business-focused approach to engineering decisions

Awards & Recognition

Iron Pillar of Zluck Solutions - 2022

Recognized for strong technical ownership, reliability, and impactful leadership in delivering scalable web solutions and mentoring development teams.

LaraconIN Community Leadership Award - 2025

Awarded in appreciation of three years of consistent volunteer leadership, coordination, and contribution to city-level Laravel community initiatives and LaraconIN events.

Decade of Excellence Recognition - Zluck Solutions 2026

Awarded during farewell ceremony in appreciation of sustained technical leadership, reliability, and significant contribution to company growth over a decade.
