HASMUKH KALSARIYA

Surat, INDIA | +91 9081816812 | Email:hasmukhkalsariya@gmail.com | https://linkedin.com/in/hasmukh-kalsariya

Professional Summary

Technical Lead & Full-Stack Developer with 10+ years of experience designing, developing, and deploying scalable, secure, and high-performance web applications. Specialized in Laravel, Node.js, React, and MySQL with strong expertise in system architecture, REST APIs, SSO authentication (Keycloak), and cloud deployments on AWS and GCP. Proven track record of leading cross-functional teams, optimizing application performance, and delivering robust business-critical solutions. Passionate about clean architecture, mentoring developers, and building maintainable, production-ready systems.

Core Skills

- **AI & Emerging Technologies**
  Generative AI Integration, OpenAI APIs, Prompt Engineering, AI-powered Content & Query Systems

- **Backend Engineer**
  Laravel, Node.js, Express, REST APIs, Authentication, RBAC, Redis, WebSocket

- **Frontend Engineer**
  React.js, JavaScript (ES6+), Hooks, Component Architecture, Performance Optimization

- **Architecture & System Design**
  Scalable System Design, Monolithic & Microservices Architecture, Database Schema Design

- **Cloud, DevOps & CI/CD**
  AWS (EC2, S3), GCP, cPanel, PM2, Nginx, SSL, CI/CD Pipelines, Git Workflows

- **Technical Leadership & Delivery**
  System Architecture, Code Reviews, Technical Decision Making, Performance Optimization, Scalable Application Design

- **Project Management & Leadership**
  Project Planning, Sprint Management, Agile/Scrum, Stakeholder Communication, Team Leadership, Delivery Management, Risk Handling, Client Coordination

Experience

Freelance Project Manager & Technical Lead   01/2026 – Present
Self-Employed

Responsibilities
- Managing multiple web application projects end-to-end from requirement gathering to production deployment
- Serving as the primary technical and communication point of contact for clients and stakeholders
- Designing scalable system architectures and conducting code reviews to ensure quality and performance
- Identifying project risks, resolving technical blockers, and ensuring timely project delivery
- Delivering full-stack solutions using Laravel, Node.js, React, and AWS/GCP cloud infrastructure

Technical Lead / Team Lead / Project Manager   03/2022 – 01/2026
Zluck Solutions | zluck.com

Responsibilities
- **Owned technical architecture** for multiple web platforms using Laravel, Node.js, React, and MySQL
- Led and mentored **cross-functional teams** (backend, frontend, WordPress) ensuring high code quality and delivery standards.
- Designed and maintained **scalable REST APIs** and real-time systems using Redis and WebSockets
- Improved application performance and stability by **optimizing legacy systems and database queries**
- Managed **sprint planning, task delegation, code reviews, and production releases**
- Integrated **payment gateways, authentication systems, and real-time modules**

- Acted as the **technical bridge** between business stakeholders and development teams

Full-Stack Developer   **03/2014 – 03/2022**
Zluck Solutions | zluck.in

Responsibilities
- Developed and maintained **high-traffic Laravel applications** with optimized MySQL queries
- Built reusable and performance-focused UI components using React and modern JavaScript
- Customized WordPress solutions aligned with complex business workflows
- Improved backend performance and reduced response times through **query and code optimization**
- Collaborated closely with designers, QA, and product teams to deliver production-ready features

Featured Projects

- **PrivateLine** – Secure communication platform with authentication and real-time messaging for VPN service web app
- **PrivateLine Meet** – Video conferencing system supporting secure live interactions
- **LiveAlarm** – Real-time alert and notification system
- **QueryLoom** – AI-powered content and query platform
- **ReadyBook** – Appointment booking and scheduling system
- **Love Expands** – WordPress-based content platform
- **Additional React Projects** – irepair.gr, qatprm.riskpro.in

Education and Training

- Bachelor of Computer Application - Veer Narmad South Gujarat University, Surat, Gujarat   **2012**
- Master of Computer Application - IGNOU   **2015**

Strengths & Professional Qualities

- Strong technical ownership and leadership mindset
- Expertise in scalable system architecture and performance optimization
- Advanced debugging and problem-solving skills
- Deep hands-on experience with Laravel, Node.js, and React ecosystems
- Clear communicator with technical and non-technical stakeholders
- Business-focused approach to engineering decisions
